

AQUANOVA 20-20-20 PASTE

The AQUANOVA "20-20-20" Paste is a balanced formula suitable for a variety of growing plants. Its nutrient ratio of 1:1:1 makes it ideal for use at almost any stage of plant growth. The formula includes essential macronutrients such as nitrogen, potassium, and phosphorus. This fertilizer is particularly effective during the season when the plant's nutritional needs are high. The acidic nature of this fertilizer (pH around 2) reduces the pH of water, nutrient solution, and soil,

improving the plant's access to and absorption of nutrients. The chemical mixing during the production process ensures that the product is uniform and homogeneous, and it has a higher solubility compared to similar powder-based fertilizers. Therefore, visible changes can be observed shortly after application.

APPLICATION RATES & TIMING

| Crop Type | Fertigation Rate | Timing |
|-------------------------|-----------------------------|--|
| Fruit Trees | 50–150 g / tree | Throughout the growth season, especially at early vegetative and reproductive stages |
| Field Crops | 4–8 kg / hectare | |
| Vegetables | 2–4 kg / hectare | |
| Greenhouse Crops | 2–4 kg / 500 m ² | |

GUARANTEED ANALYSIS

| Micronutrients (ppm) | | | | Macronutrients (% w/w) | | | |
|----------------------|-----------|----------------|-----------|------------------------|--------------|---|------------------------------|
| pH | Zinc (Zn) | Manganese (Mn) | Iron (Fe) | Magnesium Oxide (MgO) | Nitrogen (N) | Phosphorus (P ₂ O ₅) | Potassium (K ₂ O) |
| 2–2.5 | 100 | 100 | 100 | 0.02 | 20 | 20 | 20 |
